

## ASSOCIATION NEWS

SEVENTY-FIFTH ANNUAL MEETING  
 AMERICAN PUBLIC HEALTH ASSOCIATION  
 ATLANTIC CITY, N. J., OCTOBER 6-10, 1947

### A.P.H.A. TEAM OF SPEAKERS IN WESTERN STATES MAY AND JUNE, 1947

The Association announces that a team of speakers has been organized to attend a series of state and regional public health meetings beginning early in May and extending until the first week in June. This is a pattern similar to that used during 1943, 1944, and 1945, when it was not possible to hold a meeting of the Western Branch, A.P.H.A. This year, however, the Western Branch will definitely hold a meeting in San Francisco, May 27-29, preceded by two days of additional group meetings. The state meetings have been arranged before and after the dates of the Western Branch meeting in order to take advantage of the presence in the West of visitors from other sections and to bring good speakers to those who can attend state meetings but for whom attendance at the Western Branch meeting is not possible. It is expected that a total attendance of several thousand persons will result from the meetings organized by state public health associations and planned by them in the form that will best suit the needs in each state. In so far as team members are desired by the local groups, they will be used for the state programs.

The following schedule of meetings is

in semi-final form and indicates the expectation at the time the *Journal* went to press:

- |           |  |
|-----------|--|
| May 9-10  | Missouri Public Health Association, Jefferson City           |
| May 10-11 | North Dakota Public Health Association, Fargo (part of team) |
| May 12-13 | Minnesota Public Health Conference, Minneapolis              |
| May 14    | Nebraska public health workers, Omaha                        |
| May 16-17 | Colorado Public Health Association, Colorado Springs         |
| May 19-20 | New Mexico Public Health Association, Albuquerque            |
| May 22-23 | Arizona Public Health Association, Tucson                    |
| May 27-29 | Western Branch, A.P.H.A., San Francisco                      |
| June 2-3  | Idaho Public Health Association, Boise                       |
| June 4-5  | Utah Public Health Association, Salt Lake City               |

The team this year will be made up of about ten persons, including Dr. Mary Crosse of Birmingham, England, especially interested in maternal and child health. She is prepared to explain the British system for the care of premature babies, the use of nurse midwives and the administration of nurseries for children. Also included will be Walter J. Pelton, D.D.S., consultant public health dentist on the

staff of the U. S. Public Health Service; two public health nurse team members, each covering part of the circuit, Miss Eleanor Palmquist and Miss Dorothy Rusby, both Assistant Directors, National Organization for Public Health Nursing; Carl E. Buck, Dr.P.H., Field Director, A.P.H.A., will be present at several of the meetings, together with two public health engineers from the A.P.H.A. staff, Francis B. Elder, Engineering Associate and William T. Ingram, Engineering Field Associate. Also Allan Twichell, Technical Secretary, A.P.H.A. Committee on the Hygiene of Housing; Charles B. Frasher, technical consultant in personnel adminis-

tration, A.P.H.A. Merit System Unit; and Reginald M. Atwater, M.D., Executive Secretary, A.P.H.A.

The team members will be prepared again to offer a Roundup Session, in which those in attendance will be encouraged to ask questions which will be debated in public between members of the team, assisted by state representatives, as an illustration of a type of program that has proved provocative in similar meetings.

Persons desiring to attend these meetings should confirm the dates and places with local representatives because of the possibility of a change in final programs.
